In particular, the organizer or the delegated agency shall provide J&J

AFFILIATE with a list and detailed breakdown of the actual costs incurred for the provision of the obligations set out in this Agreement to allow performance in the changed form (which are expected to be lower than the costs that may have been incurred for a face-to-face meeting/Event). In case of such conversion to a different meeting/Event form, J&J AFFILIATE shall be obliged to pay only the newly identified amount or shall be entitled to receive reimbursement of the difference between the originally agreed upon contractual amount and the re-evaluated amount within 30 (thirty) days of J&J AFFILIATE's written request to the organizer. Such provisions shall take precedence over any other contracting provisions and/or other agreements and/or understandings that may have been reached between the Parties.

4. Governing Law

This Agreement shall be governed by and construed under the laws of Denmark, without reference to the conflict of law rules.

5. Dispute Resolution

In case of any dispute arising out of or in connection with this Agreement, the Parties shall first attempt (in good faith) to reach an amicable settlement. Should such amicable settlement fail, the courts of Denmark shall have exclusive jurisdiction.

6. Electronic Signatures

The present Agreement is made in an electronic pdf-version (using Adobe Sign) which shall be electronically signed by each Party. Each Party hereby acknowledges receipt of the e-signed agreement, electronically signed for approval by both Parties.

Ansøgning om støtte til produktion af en hvidbog om de hæmatologiske sygdomme i forbindelse med Kræftplan V

Behandlingen af blodkræftsygdomme taber terræn i Danmark

I Lyle har vi noteret os regeringens initiativer til at skabe forbedringer på kræftområdet, og vi har et stærkt ønske om – gennem udarbejdelsen af en hvidbog for hæmatologien – at bidrage til og sætte vores specifikke aftryk i Kræftplan V, der forventes lanceret i efteråret 2024.

Kræftplan V har som sit hovedfokus at genskabe tilliden til kræftbehandlingen og sikre en fortsat videreudvikling og fremtidssikring af kræftområdet. Kernetemaer er her forebyggelsen af kræft, at sikre at flere overlever kræft gennem anvendelse af nye, effektive og målrettede lægemidler, og at flest muligt får et godt liv som raske eller kroniske kræftpatienter.

Vi anbefaler derfor, at Kræftplan V har fokus på hele patientens forløb og ønsker at sætter fokus på tre kerneområder for hæmatologien, som ikke er tilstrækkeligt implementeret efter Kræftplan IV :

Det er:

1. Tidlig diagnose
2. Opdateret behandling
3. Mere fokus på senfølger

1. Diagnose: Tidlig diagnose er et vigtigt tema for hæmatologiske patienter. Ligesom med andre kræftsygdomme er tidlig diagnose vigtig for patientens sygdoms- og behandlingsforløb og for muligheden for at overleve sygdommen med en god livskvalitet. I processen frem mod en præcis diagnose er blodkræftpatienter ofte udfordret af, at symptomerne på fx akut leukæmi eller lymfekræft er diffuse og kan forveksles med symptomer på mere almindelige infektionssygdomme.

Imidlertid dækker blodkræft over en lang række relativt sjældne sygdomme, som en praktiserende læge vil møde meget sjældent. Derfor kan vejen fra tidlige symptomer til en præcis diagnose og adækvat behandling være meget lang med risiko for sygdomsforværring, livstruende komplikationer og unødvendig, tidlig død. Af den grund er der behov for at udvikle værktøjer til et generelt vidensløft i behandlingssystemet og blandt en række særlige målgrupper.

2. Behandling: Behandlingen af de hæmatologiske sygdomme har oplevet betydelige fremskridt de senere årtier. Sandsynligheden for at overleve blodkræft er blevet mærkbart forbedret, ikke mindst fordi behandlingen er blevet mere målrettet og personligt tilpasset. I en række af de mest almindelige sygdomme er kemoterapi på tilbageslag. Med avancerede, nye lægemidler er det blevet muligt ikke kun at forbedre overlevelsen, men også at begrænse skaderne af ofte meget bivirkningstunge ældre behandlinger. Desværre oplever vi i Danmark, at det etablerede

Patientforeningen for
Lymfekræft, Leukæmi og MDS

godkendelses- og ibrugtagningssystem for nye lægemidler er trægt, og det ses stadigt hyppigere, at behandlinger, der er etableret i landene omkring os, ikke er tilgængelige her i landet. I Lyle har vi eksempler på patienter, der har opsøgt fx CAR-T-cellebehandling i Tyskland for egen regning, fordi det ikke er muligt at få denne behandling herhjemme.

Danmark taber med andre ord terræn, når det gælder kræftoverlevelse, men også som kvalificerede partnere i forsøgs- og forskningssammenhæng. Dertil kommer at uligheden i behandlingen er et tiltagende problem. Ressourcestærke og indsigtsfulde patienter har generelt langt bedre forudsætninger for at få den optimale behandling og dermed komme bedre gennem deres behandlings- og sygdomsforløb.

3. Senfølger: I Danmark er der knapt 400.000, der har eller har haft kræft, og af dem oplever mere end halvdelen at være ramt af senfølger. Der er en direkte sammenhæng mellem omfanget og alvoren af senfølger af kræftbehandling og adgangen til nye og mere effektive lægemidler. Samfundsøkonomisk taler meget for, at det, der kan spares på ikke at tage nye, dyre lægemidler i brug, går tabt, når regningen for behandling af senfølger skal betales.

Når det gælder de hæmatologiske sygdomme, skyldes senfølgerne i meget høj grad højdosis kemoterapi, og den helt store udfordring for patienterne er, at de ikke ved, hvad de selv kan gøre for at lindre de ofte meget ubehagelige gener, eller hvor de kan få hjælp.

Senfølger betragtes af det danske sundhedssystem som selvstændige sygdomme og bliver ikke set i den sammenhæng, de er opstået i. Derfor er behandlingen af senfølger spredt fægtning. I hæmatologien har vi dygtige læger, men de ved ikke nok om, hvad de skal stille op med senfølger. Hvis vi for alvor skal gøre noget ved det, skal der tænkes mere holistisk, og det kan vores sundhedssystem ikke håndtere på nuværende tidspunkt. Derfor er det nødvendigt, at Kræftplan V får et specifikt fokus på senfølger.

Fakta:

2.600 danskere får hvert år enten lymfekræft, leukæmi eller MDS, og tallet er stigende. I dag lever godt 20.000 danskere med hæmatologisk kræft, også kaldet blodkræft. Mange dør med livsødelæggende senfølger af behandlinger, der hører fortiden til.

Lyle er en selvstændig, patientnær patientforening for mennesker med lymfekræft, leukæmi og myelodysplastisk syndrom (MDS). Foreningen blev stiftet i 2007 og er landsdækkende med en aktiv rådgivningsvirksomhed, en lang række lokale netværksgrupper og en vidtfavnende kommunikations-virksomhed på både digitale og fysiske platforme. Foreningen har ca. 1.100 medlemmer, men et betydelig større antal søger viden på LyLes indholdsrige og frit tilgængelige hjemmeside og læser foreningens nyhedsbreve og bladudgivelser. Lyle arbejder målrettet på at være opdateret på de hæmatologiske sygdomme og deres behandling ligesom vi gennem vores internationale patient-samarbejde nøje følger udviklingen i vores nabolande og hele Europa.
